

Benita Chioma Daniel

FRONT-END DEVELOPER

+234-909-478-8545 | benitadaniel.dev@gmail.com | Lagos, Nigeria

PROFESSIONAL SUMMARY

Highly motivated and skilled Frontend Engineer with over 3 years of experience in building user-centric web applications. Passionate about creating intuitive and visually appealing interfaces that enhance the user experience. Proficient in HTML, CSS, and JavaScript, with a strong grasp of modern frameworks like React and Vue.js. Collaborative team player with a track record of delivering high-quality projects on time. Detail-oriented problem solver, dedicated to writing clean and efficient code that adheres to industry standards. Driven by a genuine passion for frontend development, I'm seeking an opportunity to contribute to a dynamic team and make a meaningful impact within a fast-paced environment.

TECH STACK

Front-end basics	CSS3, HTML5, JavaScript
Frameworks	React.js, Vue.js, Nuxt.js
CSS Preprocessors	SCSS, Tachyons, Bootstrap, Tailwind
Version control	Git, Github
Package Managers	NPM, Yarn

EXPERIENCE

FRONTEND DEVELOPER | EPLAZA ESSENTIALS SOFTWARE COMPANY | Lagos, Nigeria/ [Remote] 2022– 2023

Eplaza Essential software is a leading Nigerian IT service and marketing automation company, providing cutting-edge bookkeeping and accounting software for small businesses.

- Spearheaded the creation and successful launch of a comprehensive business onboarding and management service. This innovative solution analyzed and segmented businesses based on their staffing, inventory, and accounting requirements, providing scalable options and concise business representations.
- Excelled as a valuable member of a high-performing Frontend development team consisting of ten skilled software engineers. Collaborated closely with colleagues to deliver exceptional results and exceed project objectives.
- Efficiently scaled the platform to onboard and manage over 200 businesses within the inaugural quarter, showcasing remarkable scalability. Demonstrated strong problem-solving skills and technical expertise for seamless expansion.
- Developed and implemented QR code integration across our consumer-facing products, leading to a significant enhancement in business efficiency. By streamlining processes, we achieved a remarkable 50% improvement in overall efficiency and a notable 25% increase in order conversion rates.
- Technologies: Vue.js, Nuxt.js, Tachyons, Javascript, HTML, CSS, Git, Github, Yarn

As a remote freelance developer, I played a pivotal role in building a web app that provides online security solutions for individuals and business owners. Through my contributions as a frontend developer for the online security web app, I demonstrated my expertise in developing secure and user-centric solutions. By collaborating closely with the product team and implementing robust security measures, I successfully delivered an application that instills trust, enhances online safety, and meets the unique needs of both individuals, agents and business owners.

- Developed a robust and scalable web application designed to protect users' sensitive data and ensure online security for both individuals and businesses.
- Implemented a user-friendly interface that allowed individuals and business owners to easily navigate and manage their security settings, providing a seamless user experience.
- Received positive feedback from clients and users, highlighting the app's effectiveness in safeguarding their digital assets and providing peace of mind in an increasingly interconnected world.
- Optimized website performance through efficient coding practices and optimization techniques, resulting in faster loading times and improved overall user satisfaction.
- Technologies: React.js, Javascript, Tailwind, CSS, HTML5, SCSS, Git, Github, NPM

I successfully built a hospital website, creating significant, key components that positively impacted the project. My contributions as a remote freelance developer for the hospital website showcased my ability to deliver high-quality frontend solutions, collaborate effectively with cross-functional teams, and achieve tangible results that positively impacted user experience and business outcomes.

- Developed and implemented a responsive and user-friendly website for a prominent hospital, ensuring seamless accessibility across multiple devices.
- Collaborated closely with the design team to translate their vision into a pixel-perfect frontend, focusing on creating an intuitive and visually appealing interface.
- Implemented advanced features such as online appointment booking, patient registration forms, and specialist accessibility, successfully enhancing user experience and streamlining hospital operations.
- Optimized website performance through efficient coding practices and optimization techniques, resulting in faster loading times and improved overall user satisfaction.
- Received positive feedback from hospital stakeholders and website visitors for the intuitive design, smooth functionality, and improved accessibility, ultimately driving increased patient engagement and user traffic.
- Technologies: Javascript, HTML5, SCSS, Git, Github, NPM

OTHER EXPERIENCES

Frontend Team Lead | Tech4Dev Women Techsters Software Engineering Internship | Nigeria

2021

During my internship as a Team Lead, I had the opportunity to spearhead the development of a prototype for an innovative education app. As a result of my leadership and dedication, the education app prototype showcased promising potential in revolutionizing the learning experience. The project's success was attributed to effective stakeholder engagement, streamlined project management, and a focus on delivering impactful solutions aligned with sustainable development goals.

- Proposed, designed, and developed a prototype for an innovative education app, incorporating stakeholder feedback and aligning with project objectives.
- Initiated discussions and proposed modifications to project plans, refining features and functionalities to meet evolving user requirements.
- Created and delivered project status presentations, ensuring transparent communication of progress, challenges, and achievements to project personnel.
- Led the project team in delivering the prototype within a record time frame, meeting project deadlines and aligning with Sustainable Development Goal objectives.
- Created an app mascot serving as a user personal assistant, enhancing the user experience through friendly and interactive guidance.
- Technologies: Javascript, HTML5, SCSS, Bootstrap, Git, Github

EDUCATION

B.ENG | Federal University of Technology, Owerri | Owerri, Nigeria

2016 – 2022

- GPA: 3.5
